

2026 SPECIFICATIONS

LIFE COLLECTION | CANTIRO DIFFERENCE 

Specifications that make our building process superior for you.

INDUSTRY LEADING PROCESSES & MATERIALS

Each Cantiro home offers added value through our commitment to energy efficiency, and high-performing ENERGY STAR® windows, equipment and appliances.

AIRTIGHT PERFORMANCE

-  Two blower door tests are conducted by a third party inspector, prior to drywall and again before possession, to ensure airtightness for assured comfort and lower operational costs
- EnerGuide certification label provides proof of enhanced efficiency and resale value

CONSTRUCTION EXCELLENCE

-  Advanced framing system increases the amount of insulation in your home and reduces the number of tele-posts in your basement (per model plans) for a more open concept
-  A foundation wrap system offers added protection to your home, diverting wet soil away from the foundation wall and directing any moisture to the foundation weeping tile

SOLID STRUCTURE

-  Staggered exterior stud wall system reduces separations and gaps from kitchen cabinets and counters to counteract weather fluctuations
- Engineered floor systems and roof trusses to offer superior load-bearing capacities and innate longevity for your home for years to come
- Ceilings feature 9' finished height on the main floor, 8' on the second floor and 8' for your basement
- 3-piece roughed-in plumbing in the basement in preparation for your future development
-  Second floor laundry location with floor drain (as per plan)
- Floor drain in garage (as per plan)

SMART HOME PACKAGES

Cantiro Homes is designed for how you want to live and that includes smart home features so you can experience a higher quality of lifestyle.

- Smart thermostat features a sleek design, numerous smart features, and connects effortlessly to a number of devices
- Smart home security system includes door bell camera, keyless door lock, overhead garage door with wifi connection, and a single hub to integrate all your systems under one convenient app

ENHANCED ENERGY EFFICIENCY

-  LED lighting package throughout your entire home, consuming up to 90% less power than incandescent bulbs
-  ENERGY STAR® heat recovery ventilator unit, a high efficiency renewable energy system which preheats fresh air and transfers warmth from air being exhausted to air coming in
- Furnace has a 96% AFUE (Annual Fuel Utilization Efficiency) rating which go beyond industry standards to keep the heat where it's supposed to
- Comfort ventilation system, (zone ready) balances distribution of hot and cool air
- The furnace is professionally cleaned prior to possession
- The smart thermostat allows for home and away adjustments that automatically sets for maximum comfort and savings in your pocket
-  Solar rough-in includes 2" flex pipe with pull string from basement to attic
- On-demand tankless hot water heater recovers faster than electric hot water tank
- Sealed, weather-proof exterior outlets
- Flex conduit in garage for future EV charge

AIRTIGHT INSULATION

-  Enhanced spray foam on all joist ends/cantilevers for the best seal
- R40 blown insulation over 6 mil poly vapor barrier in the attic area
- R20 exterior wall insulation includes 6 mil poly barrier and fiberglass batt insulation
- R12 rating on the basement frostwall including 6 mil poly vapor barrier extending from floor to ceiling
- R20 rating for your garage walls, R28 (blown in) for heated spaces above the garage & R20 for other areas

SUPERIOR WINDOWS & DOORS

-  Triple pane windows with Low E coating and argon filler enhances the sound barrier features and airtightness
-  Basement windows feature triple pane glass with double sliders
- Stylish fiberglass, insulated front door with metal jamb cladding increases durability and is dent resistant
- Fully insulated rear French door with oversized reinforced glass
-  Insulated and stylish steel garage overhead door. Includes keyless entry and 2 garage openers (applicable to attached garage homes)
- Transom window above your main and rear entrance to allow extra light in (as per plan)

EXPERTLY DESIGNED FLOOR PLANS

From the low maintenance counters and cabinets to the stainless-steel appliance package, we've got you covered every step of the way.

KITCHENS

- 36" upper cabinets enhance your storage, are easy to clean, and feature a Thermofoil or melamine finish (as per interior style)
Cabinets extend to the height of your bulkhead to offer cleaner and more modern appeal
- 2cm quartz coordinated to match interior style package
